Course Syllabus

MCTE 661 Online Learning Environments (3 credits)

2009 Winter Term, January 5, 2009 - March 27, 2009, Online Format

Professor: Laurie P. Dringus, Ph.D., Professor
Graduate School of Computer and Information Sciences
Nova Southeastern University
Carl DeSantis Building, 4th floor
3301 College Avenue, Ft. Lauderdale, FL 33314
email: laurie@scis.nova.edu
Office location, room 4073
Office: (954) 262-2073, Fax (954) 262-3915

Class Location and Format: Online using WebCT tools. Please note that some files and information resources are posted on my OLE Study Area website. Course Internet address: http://www.scis.nova.edu/~laurie/index.html. The course requires asynchronous communication using the discussion forums in WebCT for class discussion. No live chat sessions will be scheduled.

Office hours: Students are encouraged to use electronic mail to communicate with the professor. Responses generally are provided within 24 hours during working days (maybe less if you send me a message during daytime hours). Phone conversations should be planned in advance – establish an appointment via email with the professor.

Course Description:

The course explores research trends in the area of online learning. Student will explore the requirements needed for successful online learning and teaching. Topics investigated may include the process of teaching and learning in an OLE, evaluating effective courseware and online communications technologies, integration of technologies into OLEs, working with online classroom dynamics, addressing the needs of the online student, making the transition to online teaching, promoting the development of an online learning community, comparing Learning Management Systems (LMSs), and investigating emerging trends in e-learning and e-training in industry settings.

Required Textbooks and Readings:

3. Selected articles available online: See the Course Guide for the complete assigned article reading list.

*Important! See the Course Schedule for specific reading assignments throughout the term.*

**Learning Objectives:**

The student will focus on issues related to online learning environments and will:

1. Identify the emerging role of Online Learning Environments (OLEs).
2. Define and distinguish an online learning environment and an online learning community.
3. Describe the research trends in online and blended learning.
4. Evaluate the process of teaching and learning in an OLE.
5. Identify the needs of online students and teachers.
7. Discuss the differences between asynchronous and synchronous learning methods.
8. Examine how a community of practice (CoP) can be used in OLEs.
9. Examine how effective practices in social networking can be used in distributed learning environments.
10. Examine the evolution and current trends in developing OLEs, including learning management systems design.
11. Identify and state a problem for a research paper that captures the essence of the trouble in the problem environment.
12. Identify key research literature that supports the stated problem and research questions of the research paper.
13. Synthesize the research literature effectively in the research paper.

**Major Course Themes and Course Topics (summary):**

Overview/Future of Online Learning Environments
Development of Online Learning Environments
Teaching and Learning in Online Learning Environments
Interacting in Online Learning Environments
Social Networking in Online Learning Environments
Research/Innovation in Online Learning Environments
Evaluation of Online Learning Environments

**Instruction Methods and Tools:**

Students will use WebCT for MCTE 661 coursework. No email attachment of assignments will be accepted, unless pre-approved by the professor. Students will use the Student Forums in WebCT throughout the term to contribute to asynchronous online class discussions. Students will use the NSU Electronic Library to search for scholarly sources.
MCTE 661 Course Requirements:

Course Activities: Students will conduct independent literature research and produce scholarly projects. In addition, students will contribute to the asynchronous discussion forums in WebCT throughout the term. Contributions will count as points towards the class participation grade. See the section on Student Forums in the addendum Course Guide for instructions/expectations on contributing to the online conference discussions.

In addition to the required asynchronous contributions in Forums, the major course requirements will consist of three assignments.

Instead of the typical midterm and final examinations, three assignments are required that will enable the student to synthesize the major issues and relevant research currently being examined in the area of online learning environments.

Assignment #1: Research Proposal. Due date is: Sunday, February 1, 2009.
Assignment #2: Journal article reviews. Due date is: Sunday, February 22, 2009.

IMPORTANT: Specific instructions for completing these assignments are contained in the addendum Course Guide. Assignments must be submitted according to the due dates specified in this syllabus. Late assignments must be pre-approved by the professor and will likely result in point reduction. ALL ASSIGNMENTS REQUIRE OUTSIDE LITERATURE RESEARCH AND ACTIVITY. Assignments must be submitted online through the assignment submission box in WebCT. Do not email or fax assignments.

Grading Scale and Criteria:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>192-200</td>
</tr>
<tr>
<td>A-</td>
<td>186-191</td>

200 points total
School and University Policies and Procedures:
Students must comply with the policies published in the school’s Graduate Catalog and the NSU Student Handbook, some of which are included or referenced below. The catalog is at http://www.scis.nova.edu/NSS/pdf_documents/Catalog.pdf. The handbook is at http://www.nova.edu/cwis/studentaffairs/forms/ustudenthandbook.pdf.

1. Standards of Academic Integrity For the university-wide policy on academic standards, see the section Code of Student Conduct and Academic Responsibility in the NSU Student Handbook. Also see the section Student Misconduct in the GSCIS catalog. Each student is responsible for maintaining academic integrity and intellectual honesty in his or her academic work. It is the policy of the school that each student must:

- Submit his or her own work, not that of another person
- Not falsify data or records (including admission materials and academic work)
- Not engage in cheating (e.g., giving or receiving help during examinations; acquiring and/or transmitting test questions prior to an examination; and using unauthorized materials, such as notes, during an examination)
- Not receive or give aid on assigned work that requires independent effort
- Properly credit the words or ideas of others according to accepted standards for professional publications (see Crediting the Words or Ideas of Others)
- Not use or consult paper writing services, software coding services, or similar services for the purpose of obtaining assistance in the preparation of materials to be submitted for course assignments or for theses or dissertations
- Not commit plagiarism (Merriam-Webster’s Collegiate Dictionary (1996) defines plagiarism as “stealing or passing off ideas or words of another as one’s own” and “the use of a created production without crediting the source.”) (see Crediting the Words or Ideas of Others below)

Crediting the Words or Ideas of Others

When using the exact words of another, quotation marks must be used for short quotations (fewer than 40 words), and block quotation style must be used for longer quotations. In either case, a proper citation must also be provided. The Publication Manual of the American Psychological Association, Fifth Edition, (2001, pp. 117 and 292) contains standards and examples on quotation methods.
When paraphrasing (summarizing, or rewriting) the words or ideas of another, a proper citation must be provided. *(Publication Manual of the American Psychological Association, Fifth Edition (2001) contains standards and examples on citation methods (pp. 207–214) and reference lists (pp. 215–281)). The New Shorter Oxford English Dictionary (1993) defines paraphrase as “An expression in other words, usually fuller and clearer, of the sense of a written or spoken passage or text…Express the meaning (of a word, phrase, passage, or work) in other words, usually with the object of clarification…” Changing word order, deleting words, or substituting synonyms is not acceptable paraphrasing—it is plagiarism, even when properly cited. Rather than make changes of this nature, the source should be quoted as written.

**Addendum by this professor:** Additional requirement for this course — overuse of direct quotes will not be acceptable in papers for this course. Direct quotes should be used sparingly, if only necessary. Points will be reduced in papers where excessive direct quoting is used. It is better instead to paraphrase and properly cite the work.

**Original Work**

Assignments, exams, projects, papers, theses, dissertations, etc., must be the original work of the student. Original work may include the thoughts and words of another author but such thoughts or words must be identified utilizing quotation marks or indentation and must properly identify the source (see the previous section *Crediting the Words or Ideas of Others*). At all times, students are expected to comply with the school’s accepted citation practice and policy.

Work is not original when it has been submitted previously by the author or by anyone else for academic credit. Work is not original when it has been copied or partially copied from any other source, including another student, unless such copying is acknowledged by the person submitting the work for credit at the time the work is being submitted, or unless copying, sharing, or joint authorship is an express part of the assignment. Exams and tests are original work when no unauthorized aid is given, received, or used before or during the course of the examination, reexamination, and/or remediation.

**2. Writing Skills**

Students must demonstrate proficiency in the use of the English language. Grammatical errors, spelling errors, and writing that fails to express ideas clearly will affect their grades and the completion of their academic programs. The faculty will not provide remedial help concerning grammatical errors or other writing difficulties. It is the student’s responsibility to proofread and edit his or her work which, in both form and content, should be letter-perfect. Work that is not properly edited will be rejected. It is university policy that students must submit their own work, not that of another person. Consequently, they should refrain from using outside editors to redo their work.
3. Disabilities and ADA

NSU complies with the American with Disabilities Act (ADA). The university’s detailed policy on disabilities is contained in the NSU Student Handbook. Student requests for accommodation based on ADA will be considered on an individual basis. Students with disabilities should discuss their needs with their academic advisors before the commencement of classes if possible.

4. Communication by Email

Students must use their NSU email accounts when sending email to faculty and staff and must clearly identify their names and other appropriate information, e.g., course or program. When communicating with students via email, faculty and staff members will send mail only to NSU email accounts using NSU-recognized usernames. Students who forward their NSU-generated email to other email accounts do so at their own risk. GSCIS uses various course management tools that use private internal email systems. Students enrolled in courses using these tools should check both the private internal email system and NSU’s regular email system. NSU offers students web-based email access. Students are encouraged to check their NSU email account daily.

5. The Temporary Grade of Incomplete (I)

The temporary grade of Incomplete (I) will be granted only in cases of extreme hardship. Students do not have a right to an incomplete, which may be granted only when there is evidence of just cause. A student desiring an incomplete must submit a written appeal to the course professor at least two weeks prior to the end of the term. In the appeal, the student must: (1) provide a rationale; (2) demonstrate that he/she has been making a sincere effort to complete the assignments during the term; and (3) explain how all the possibilities to complete the assignments on time have been exhausted. Should the course professor agree, an incomplete contract will be prepared by the student and signed by both student and professor. The incomplete contract must contain a description of the work to be completed and a timetable. The completion period should be the shortest possible. In no case may the completion date extend beyond 30 days from the last day of the term for master’s courses or beyond 60 days from the last day of the term for doctoral courses. The incomplete contract will accompany the submission of the professor’s final grade roster to the program office. The program office will monitor each incomplete contract. If a change-of-grade form is not submitted by the scheduled completion date, the grade will be changed automatically from I to F. No student may graduate with an I on his or her record.

Addendum by the professor: Incompletes will NOT be granted for MCTE 661.
6. Grade Policy Regarding Withdrawals
Course withdrawal requests must be submitted to the program office in writing by the student. Requests for withdrawal must be received by the program office by the calendar midpoint of the course (see dates in the academic calendar in the catalog and program brochures or at: http://www.scis.nova.edu/NSS/pdf_documents/AcadCal.pdf). Withdrawals sent by email must be sent from the student’s assigned NSU email account. Requests for withdrawal received after 11:59 p.m. EST on the withdrawal deadline date will not be accepted. Failure to attend class or participate in course activities will not automatically drop or withdraw a student from the class or the university. Students who have not withdrawn by the withdrawal deadline will receive letter grades that reflect their performance in the course. When a withdrawal request is approved, the transcript will show a grade of W (Withdrawn) for the course. Students with four withdrawals will be dismissed from the program. Depending on the date of withdrawal, the student may be eligible for a partial refund (see the appropriate catalog section Refund Policy Regarding Withdrawals).

7. Acceptable Use of Computing Resources
Students must comply with the university’s Policy on Acceptable Use of Computing Resources (see NSU Student Handbook).

8. Academic Progress, Grade Requirements, and Academic Standing
Students must be familiar with the school’s policies which are contained in its catalog.

9. Student Research Involving Human Subjects
Students must be familiar with the university’s policy (see paragraph in catalog).

10. Responsibility for Payment of Tuition and Fees
Once registered, students are personally responsible for the payment of their tuition and fees. Returned checks, cancelled credit cards, employer or agency refusal to pay, ineligibility for financial aid, and other reasons for non-payment may result in a direct bill to the student, and/or referral to a collection agency.

Payment and refund policies are based on the view that a student registering for a class is reserving a place in that class and that tuition and fees cover the opportunity to secure that place in the class. Since no other person can purchase that place, the student is responsible for the tuition and fees associated with it. Simply not attending does not constitute a reason for non-payment.

11. Miscellaneous rules: (1) A student may neither do additional work nor repeat work to raise their grade. (2) Extensive literature research is required for all work in this course. (3) Adhere to all deadlines – late arrivals will likely result in point reduction. (4) To receive full class participation points for MCTE 661, every student must make steady contributions to the online Student Forums in order to keep a healthy communication going throughout the term. (5) No work from another course may be used in MCTE 661. (6) There will be no incompletes given for MCTE 661.
Bibliography/Recommended Texts:
A comprehensive OLE Resources List is posted on the course website.
